

## Frost Resistant Emergency Drench Shower

Product Code: ARB-TH220

Outdoor frost resistant emergency shower. With all year outdoor usage this frost resistant emergency shower will keep your employees safe. The unit also comes with bright yellow detailing to aid visibility, even in smoky or dusty environments or in emergency situations where the user's eyesight might be compromised.

All it takes to activate this stainless steel wall mounted emergency drench shower is a tug on the pull handle. Once activated, the unit will discharge water without interruption thanks to a stay-open ball valve. We take safety seriously here at Safety-Eyewash.co.uk, which is why we have added frost resistant safety showers to our range. The trace heating has an inbuilt thermostat that switches on when temperatures reach zero degrees celsius and turns off again at 3 degrees celsius. The unit is tested to meet the stringent testing requirements of the ANSI Z358.1, EN15154-2 and DVGW regulations.

### Delivery>

To order usually 3 to 5 working days delivery time

### Tech specs
